

The Page House

An Elegant Queen Anne Victorian Home located just minutes from Austin and known as one of Central Texas most beautiful venues.

Our Queen Anne was built in 1903 and now nearly 107 years later she has seen countless memories made. She has shared in the lives of the thousands who have walked through her door and overheard countless conversations. She has sheltered mothers as they gave birth, protected families as they slept, and stood regal and strong as those she shared her life with moved on. More recently she has had the honor and privilege to be a part of the laughter, love and unity of hundreds of couples as they pledged their hearts to each other. All of those unblemished memories of past and present held safely within her walls can not help but bestow the warmth and peace of this Victorian lady.

Come see for yourself why so many couples choose The Page House for the most memorable day of their lives. We invite you to add your special day to her *Page* of memories.

Call us to reserve your date and time to visit us and tour our beautiful venue.
